

MOUNTING

Dropln Sinks are top mounted. This simplified method of install a sink cutout and eliminates the worksurface overhang between the undermount sink basins and the sink cutout which can gather residual chemicals and bacteria.

APPLICATIONS

Basin sizes and depths are available to fit a wide variety of applications. Many Dropln Sinks are available with space saving corner drains.

DESIGNED TO MAXIMIZE

This design moves plumbing to the back of the supporting cabinet to maximize usable storage areas. All Dropln Sink surfaces are clearly visible and radiused for ease of cleaning.
